Colorado's Ag Water Summit

Loveland, CO – The Colorado Ag Water Alliance is hosting its biannual Ag Water Summit at The Ranch at The Larimer County Fairgrounds in the McKee Exhibition Hall on December 5, 2017 from 8AM-5PM. You can register for the Summit at https://cawasummit.eventbrite.com.

Colorado's Ag Water Summit brings together agricultural leaders from across the state, water professionals, elected officials, and decision makers to discuss agricultural water issues. We want to continue the discussion of pertinent water topics, but also want to make this event an opportunity to tell the story of "Water and Agriculture" for people unfamiliar with the role of agriculture in Colorado.

Speakers and panels will address how Colorado's producers use water, what role agriculture has in rural and urban Colorado and how these two communities are connected by food and water. There will also be discussion about water quality and what farmers and ranchers across Colorado are doing in regards to efficacy, conservation, and dealing with future water shortages.

The Colorado Ag Water Alliance

The Colorado Ag Water Alliance (CAWA) is comprised of agricultural leaders from across Colorado representing major facets of production agriculture. CAWA's goals is to empower Colorado agricultural producers to make the most informed and viable decisions regarding Colorado water.
